Release Summary Metrics

Product Quality (Customer & Production)

Metric	Formula/Definition	Live Value	Score	RAG
Escaped defect (P0/P1 only)	Count of P0/P1 in production	4	60	Amber
Defect Leakage Rate	(Escaped P0/P1 ÷ Total Defects Found) × 100%	66.6%	0	Red
Crash-free session rate	(Total Sessions – Crashes) ÷ Total Sessions × 100%	100%	100	Green
Crash-free users	Unique users without crash	100%	100	Green

Customer-reported incidents	Count of production issues reported by customers	0	100	Green
Rollback / hotfix count	Number of production rollbacks or hotfixes	0	100	Green

Process Quality

Metric	Formula / Calculation (Step-by-Step)	Live Value	Score	RAG
Functional Test Pass Rate	Passed ÷ Executed	99.7%	100	Green
Functional Test Completion Rate	(Passed + Failed) ÷ Total cases	100%	100	Green
Regression Pass Rate	(Manual + Automation) Passed ÷ Executed	100%	100	Green
Open P0/P1 at release time	Count of open Sev-1/2 defects	0	100	Green
Defect Density	Total Defects (Functional + Regression + Production) ÷ Total Man-Days	1.05	0	Red

Efficiency & Effectiveness

Metric	Formula / Calculation (Step-by-Step)	Live Value	Score	RAG
Automation Coverage	(Automated regression cases ÷ Total regression cases) × 100%	N/A	N/A	N/A

Automation First-run Pass Rate	First execution pass %	N/A	N/A	N/A
Flaky Test Rate	Flaky executions ÷ Total automated runs	N/A	N/A	N/A
Total defects found in Regression vs UAT	Count comparison	UAT : 6 Regression : 1	0	Red

Defect Flow and Backlog Health

Metric	Formula / Calculation (Step-by-Step)	Live Value	Score	RAG
Average Weekly P0/P1 Defects Created	Total P0/P1 defects created during testing period ÷ Total testing weeks	3.0	60	Amber
Open P0/P1 defects	Current open count	1	100	Green
Average Defect Aging (P0/P1)	Average days open	N/A	N/A	N/A
Defects Fixed Rate	Total resolved defects / Total created defects	91%	60	Amber
Defects Reopened Rate	Total tested defects / Total reopened defects	16%	30	Red

- Resolved defects = defects moved to Ready for deploy / Done status

- Reopened defects = defects moved to QA Failed / UAT Failed
- Tested defects = defects moved to QA In Progress / UAT In Progress

QA Health Score Calculation

Weekly Operational

1. Total metrics scored = 4
2. Total weeks of testing = 12
3. Total points = 835
4. **Average QA Health Score** = 70
5. **RAG Score** = Amber

Release Summary

1. Total metrics scored = 16
2. Total points = 1080
3. **Average QA Health Score** = 67.5
4. **RAG Score** = Amber

Overall

1. **Overall QA Health Score** = 68.75
2. **RAG Score** = Amber

 Green : ≥ 85

Amber : 60–84 pts

Red : < 60 pts
